

Talavera Mural Flower Child

GLOSSY FINISH

Featuring a braided-haired woman in traditional attire, surrounded by vibrant floral motifs and two striking red cardinals, this artwork embodies culture, nature, and timeless beauty. Every detail, from the hand-painted patterns to the vivid colors, reflects the artistry and dedication of both creators, making this mural a one-of-a-kind statement piece that celebrates Mexican tradition and artistic excellence.

Each of these murals are unique and none of them will have the same coloring. You can use them to accent kitchen back splashes, niches, fountains, and accent walls. We recommend you play with the colors and look at the talavera tiles we offer to complement these murals!
